

SUNDAY MAY 11

Redefining Care in **BESITY &** **Liver Disease:** Multidisciplinary Team Approaches and Patient Perspectives

Conference Room 2

16:15 – 17:45 CEST

AGENDA

MODERATOR:

Michael Betel
President,
Fatty Liver Alliance,
Canada

PANELISTS:

Ana María Cebrián-Cuenca
Professor of Family Medicine,
Murcian Health Service,
Cartagena, Spain

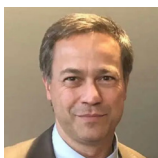

Vicki Mooney
Executive director,
European coalition of people
living with obesity,
ECPO, Ireland

Dimitris Papamargaritis
Associate professor,
Diabetes and endocrinology,
University of Leicester,
United Kingdom

Vlad Ratziu
Professor of hepatology,
Sorbonne University and the Hôpital
Pitié-Salpêtrière Medical School,
Paris, France

Welcome & Introduction

Understanding the Metabolic Link – Obesity and Liver Disease

Guidelines to Bedside: Translating Evidence into Person-Centered Care

Improving Patient Care: Non-Invasive Assessment of Liver Disease and Novel Therapies

Patient Voice – A Journey Through the Healthcare System

Co-Creating the Future of Liver and Obesity Care: Clinicians and Patients Together - Panel Discussion

Take-Home Messages

EBAC Evaluation

EDUCATIONAL OBJECTIVES:

- Understand the physiological mechanisms linking obesity, CRM diseases, and liver disease, with a focus on fibrosis.
- Apply updated guidelines for obesity and MASLD/MASH management, including referral strategies.
- Integrate non-invasive diagnostic tools and emerging therapies into clinical practice.
- Enhance multidisciplinary collaboration to optimize patient care pathways.
- Incorporate patient perspectives to improve patient engagement and outcomes.

This activity is supported by an independent medical educational grant from Boehringer Ingelheim
